Instructions for patients

Your GP or Physician may have suggested visiting us, or may be referring you for specialist cardiac testing/monitoring and given you a leaflet about our services.

Please note patients can schedule services marked **SelfR** without a GP referral.

If you wish to proceed with the private patient service the first thing to do is to call or email us to schedule an appointment and our staff will then explain the next steps. Services marked **E-Health** can be booked on line - see www.scvc.co.uk/e-health.

For our ECG and BP Homecare services you should ideally attend with your own Tablet or Smartphone, which most of our patients prefer to use if at all possible for the App you will need to install.

If you do not have a smartphone, Tablet or even internet don't worry since we also have options to suit all comers.
